## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

1. Claims 29, 32-36, 38, and 41-47 remain pending and have been examined.
2. The indicated allowability of claims 32 and 33 is withdrawn in view of a further consideration of Halter et al., US 5,319,705. Rejections based on the newly cited reference(s) follow.

***Terminal Disclaimer***

3. The terminal disclaimer filed on November 3, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,347,145 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 32 and 33 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Halter, US 5,319,705.

As for claim 32, Halter teaches a deciphering method (col. 6 lines 1-25) comprising: recording at least part of a p number of second keys, where p is an integer greater than or equal to two, in a secret area in a deciphering device (col. 6 lines 1-25); inputting first information composed of enciphered data obtained by enciphering data with a first key and second information composed of a p number of enciphered first keys obtained by enciphering said first key with said p number of second keys, respectively (col. 6 lines 1-25, col. 9 line 28 through col. 10 line 16); deciphering at least one said p number of enciphered first keys using the recorded at least part of the p number of second keys to obtain said first key (col. 9 line 28 through col. 10 line 16); confirming by a specific method that the obtained first key is correct (col. 9 lines 40-45); and deciphering said enciphered data using said obtained first key after the confirmation to obtain said data (col. 9 lines 62-67).

As for claim 33, Halter teaches a deciphering method according to claim 32, wherein said data includes at least one of key information, documents, sound, images, and programs (col. 4 lines 23-37: multimedia software distribution).

***Allowable Subject Matter***

6. Claims 29, 34-36, 38, and 41-47 are allowed.

Art Unit: 2137

7. The reasons for the indication of allowable subject matter are the same as set forth in the previous Office Action and therefore will not be repeated herein but instead are incorporated by reference to the previous Office Action.

### **Conclusion**

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul E. Callahan whose telephone number is (571) 272-3869. The examiner can normally be reached on M-F from 9 to 5.
